Fireworks

Fireworks are loud, bright explosions in the sky used during holidays and celebrations.

I can watch videos of fireworks ahead of time, first without sound.

I may find it helpful to create a visual schedule of what I will do during the fireworks show.

I can bring a fidget toy, comfort item, noise-cancelling headphones, earplugs, or sunglasses.

I can find a place to watch the show with smaller crowds, move indoors, or sit in a parked car.

If someone near me sets off fireworks, I need to be careful. Fireworks are very hot and can burn me.

ASERT
Bringing autism resources together.
