

AIR QUALITY ALERTS

Sometimes weather, pollution, or smoke can make the air outdoors less safe to breathe.

The safety of the air is measured by air quality.

If the air is unsafe, there may be an Air Quality Alert.

Sign up for CodeRed Pennsylvania alerts to stay informed about Air Quality Alerts.

If there is an Air Quality Alert in your area, there are some things you can do to keep your body healthy and safer.

Do not go outside unless you really have to.

AIR QUALITY ALERTS

If you have to go outside, do not exercise.
Wear a mask if you have one.

Close the windows, and use fans
inside your home.

If it's hard for you to breathe, or you
feel sick or dizzy, call 911.
