

Telehealth

Jan Shea, BSN, RN
Philadelphia Coordinated Health Care

KEY TAKEAWAYS

These services provide an interactive audio and/or video system that allows real-time communication between the practitioner and the patient.

Please see links in the PowerPoint slides for resources in your area.

Please check with your local hospital and/or healthcare provider for additional telehealth/telemedicine resources.

- Telehealth and telemedicine services are a way to access medical care without acquiring or transmitting the virus and they are available throughout Pennsylvania.
